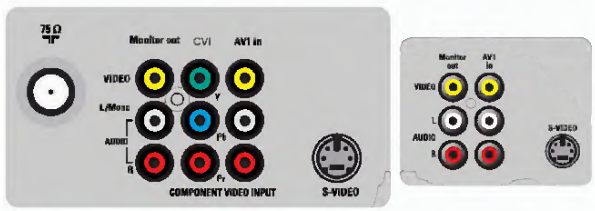
- Mains power: AC 90-140V, 60Hz

Dimensions
- Box dimensions (W x H x D): 600 x 550 x 531 mm
- Set weight: 25 kg
- Weight incl. Packaging: 30 kg
- Color cabinet: Silver Shadow (10B11)



Highlights

Real Flat picture tube
The flatter tube provides a wider viewing angle while minimizing reflections for the best picture possible.

Contrast & Sharpness Control
Contrast and Sharpness Control for better image control

Incredible Surround™
Incredible Surround is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.

Auto Picture
Auto Picture button on the remote control enables one-touch selection of various preset optimized image settings to suit different TV program.

Auto Sound
Auto Sound provides pre-defined sound settings for ultra bass, bass, treble and balance for the optimum entertainment experience.

Component Video Input (YPbPr)
Component Video is the highest quality interconnection standard for analog video. It is sharper than S-video and composite video.

S-Video Input
An S-video format signal preserves the video quality better than standard video input.
